

Plant Online Store App Figma UI Template

The image displays a collection of Figma wireframe prototypes for a mobile plant store application. The screens include:

- Home Screen:** Shows a large orchid in a pot, a promotional banner for 30% off, and a "Shop Now" button. It also features categories like Indoor, Outdoor, Air-Purifying, and Flower, along with a "Best Sellers" section.
- Product Detail Screen:** Shows a detailed view of an orchid plant, its price (\$29.99), and a rating of 5.0 stars.
- New Arrivals Screen:** A grid of plants including Peace Lily, Lavender, Aloe Vera, and Haworthia, each with a "SALE" badge and a price reduction.
- Wishlist Screen:** A list of items with small images, names, original prices, sale prices, and ratings.
- Search Screen:** A search bar at the top followed by a grid of plant categories: Indoor, Outdoor, Air-Purifying, and Succulents & Cacti.
- Bottom Navigation Bar:** Includes icons for Home, Search, Cart, and Heart.

Screens Included In Version 1.0

Also, there is a Grid Style: 12 columns with 8 px gutters.

If you need to see it just press Ctrl+Shift+4
and it will become visible. The same HotKeys hide it.

Assets Page

06

You can see the Assets page in the left top corner.

A screenshot of a mobile-style navigation bar. At the top, there's a search icon, followed by 'Layers' and 'Assets'. To the right of 'Assets' is a dropdown arrow. Below this, the word 'Pages' is followed by a plus sign. Underneath 'Pages' is the text 'EverBloom App'. Below 'EverBloom App' is a section labeled 'Assets' with a checkmark icon.

A screenshot of the 'Assets' page. It features a light gray header with a back arrow and the word 'Assets'. Below the header is a list of element types, each preceded by a blue diamond icon. The list includes: Top bar, Field, Product big, Checkbox, Category, link, Product 1/2, Product small, Product item list, Review, Order item list, Product item cart list, Menu item, Menu 2 item, Payment method item, Promocode item, and Shipping details.

Left sidebar

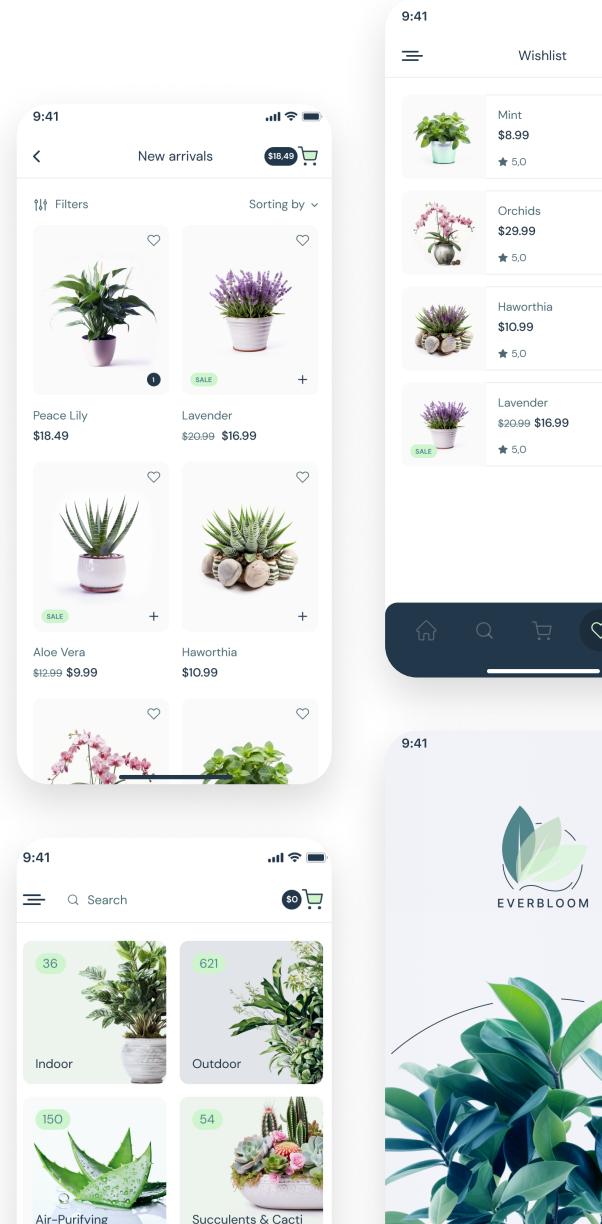

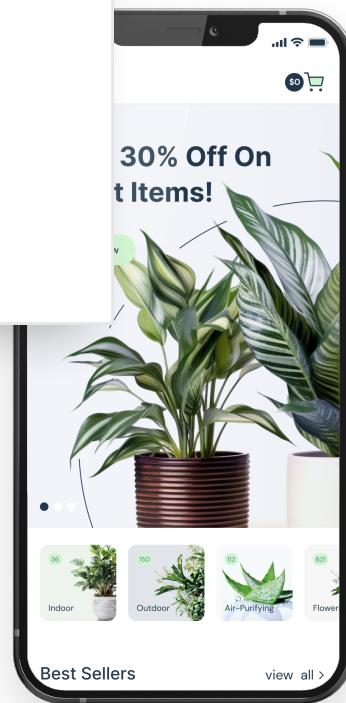

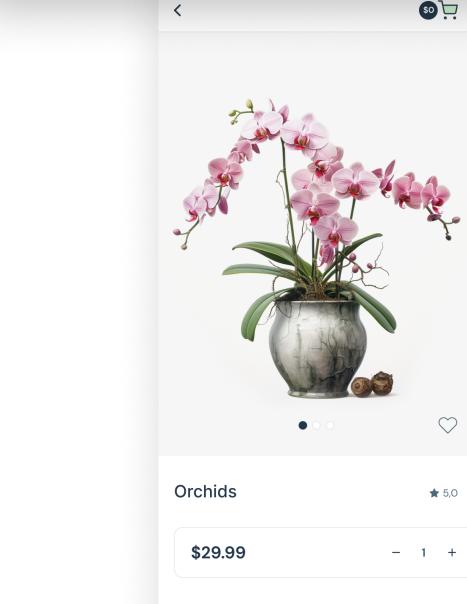

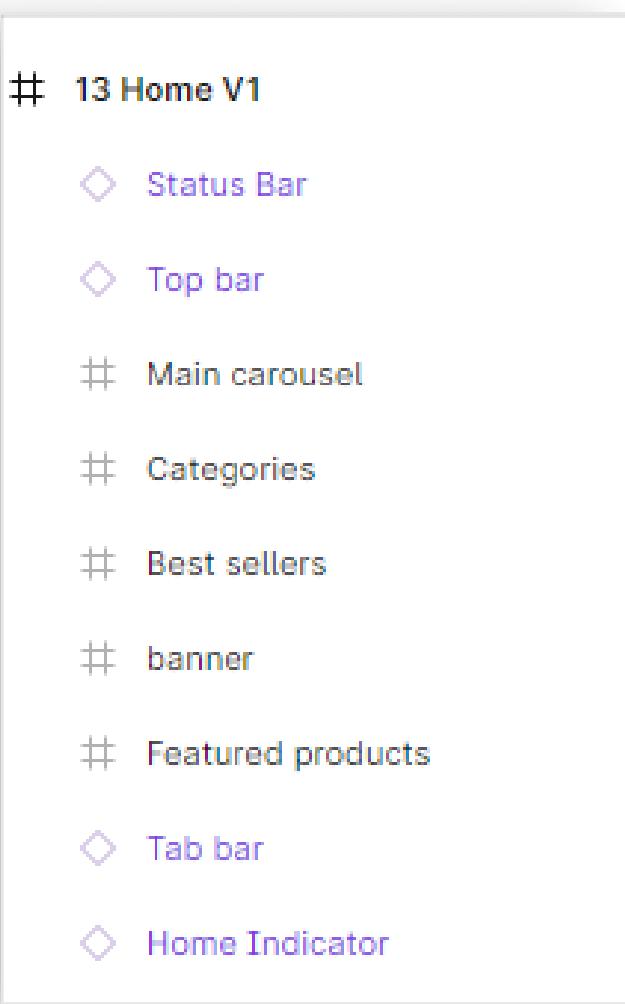

Page with elements

Here you can edit the elements that are used in this Template. When you change any of this, it will be changed everywhere in the Template where it is used.

A screenshot of a product listing page. At the top, there's a header with the time '9:41', signal strength, and battery level. Below the header is a navigation bar with a back arrow, the word 'Sign in', a menu icon, and a shopping cart icon. The main content area shows a large image of a green potted plant. To the right of the plant is a smaller image of another plant with the text 'Lightning' and a count of '38'. Below these images is a card for a 'Dining chair' priced at '\$202.7'. At the bottom right, there's a 'view all >' button. The bottom of the screen shows partial images of other plants.

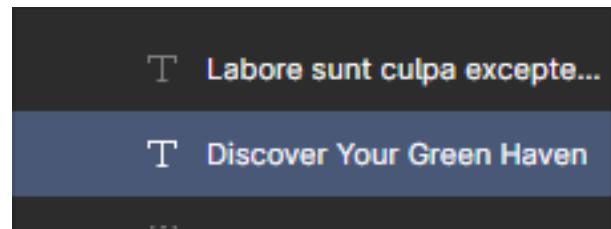

We've organised groups and layers for every Frame included in this template. Below there's an example of group & layer structure for Homepage. If your layout is distorted, make sure the fonts are installed correctly and restart your system.

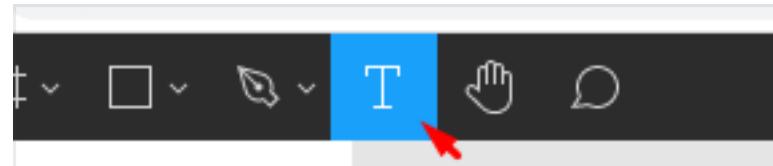

How To Edit The Text

08

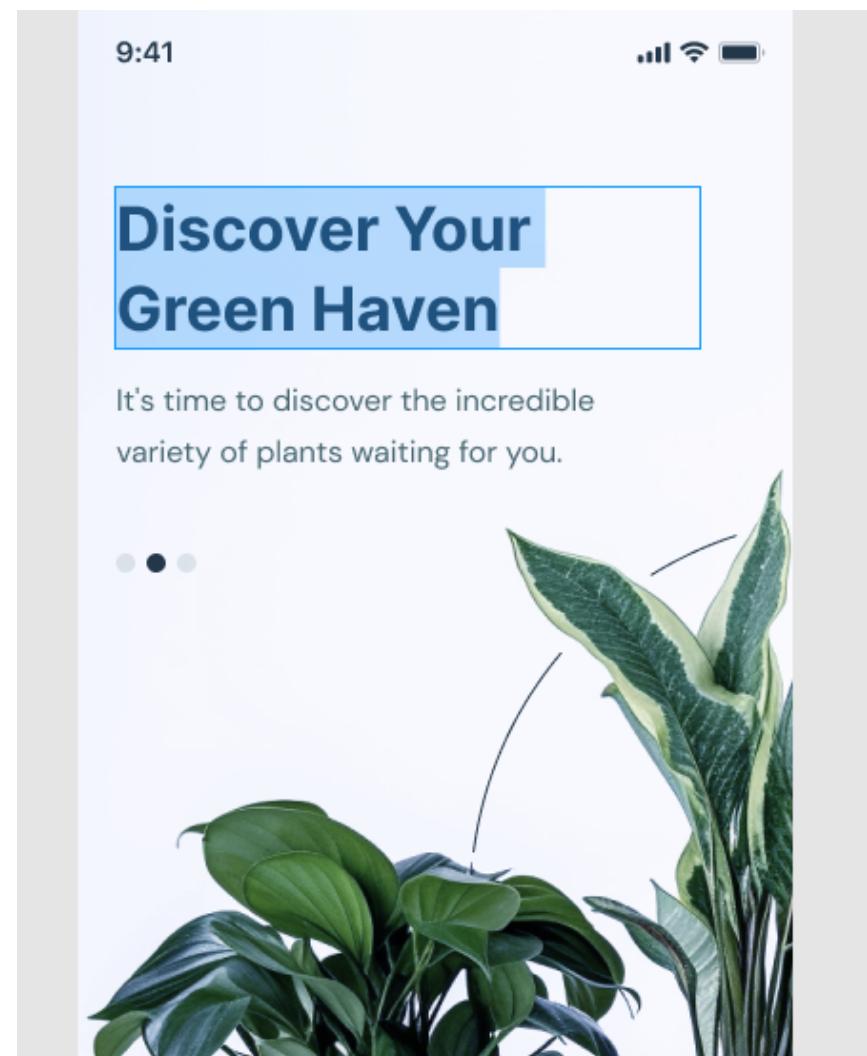

Select the layer from layer panel,
which you want to edit or make
changes.

Select the tool from Tools
panel – Text or press T key on
your keyboard.

Start typing your text.
Press Esc . That's all!

How To Paste Your Images

09

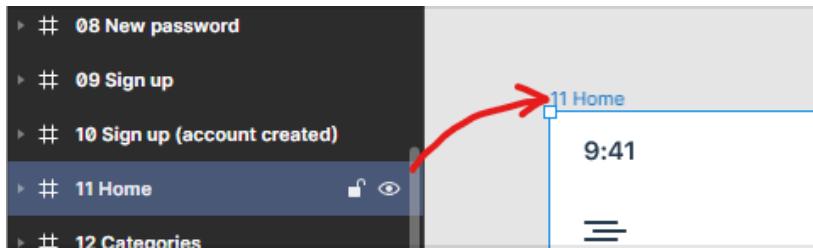

Find the image on your computer
and drag it directly into Figma.

Put it to the necessary Frame

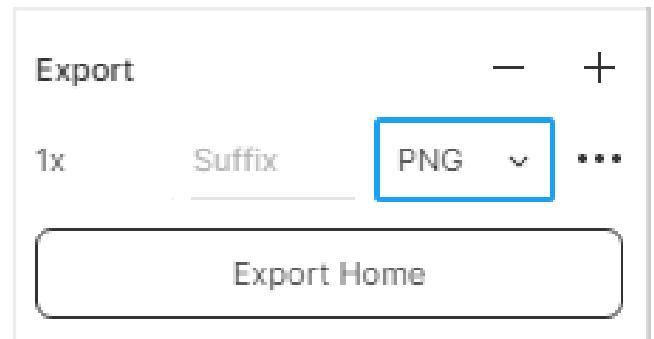

Export

10

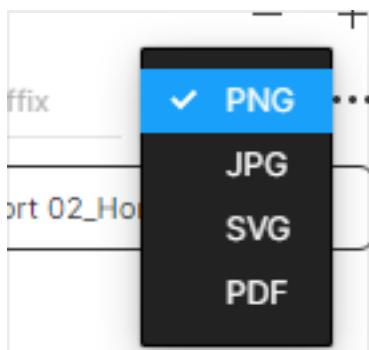

Select a necessary
Frame in the left
sidebar
←

You can find the export area in the
right sidebar (bottom). →

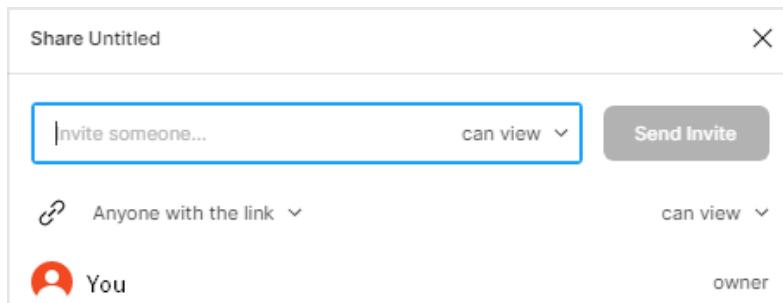

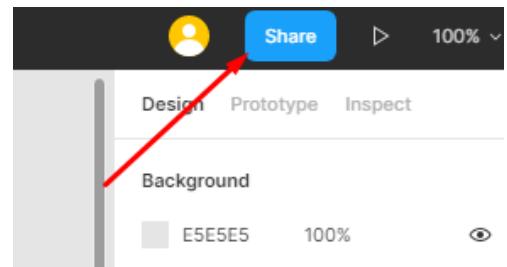

↓ Select a necessary
format.

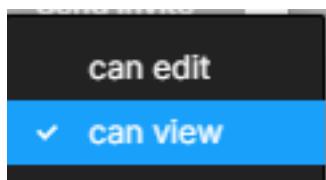

Click the Button ↓

Export Home

If you need to provide a layout to the developer, then you can simply share this file. Just click the button Share at the top right corner.

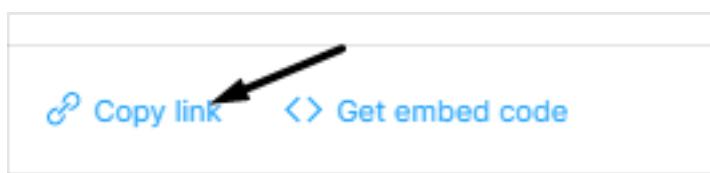

You'll see such a popup.

You can let him only view
(recommended) or edit this file.

Copy the link and send it to
developer

If you need to see all the css properties of an element, turn on the Dev Mode at the right top panel.

After that, in the right sidebar you will have all the information you need on the item.

The screenshot shows a login form with fields for EMAIL and PASSWORD. The EMAIL field contains "oliviabennett@mail.com". To the right, a detailed CSS inspector is open in a sidebar, showing the following code for the H1 heading:

```
1 color: var(--main-color, #23374A);
2 font-feature-settings: 'clig' off, 'liga' off;
3
4 /* headings/H1 */
5 font-family: Inter;
6 font-size: 32px;
7 font-style: normal;
8 font-weight: 700;
9 line-height: 130%; /* 41.6px */
10 text-transform: capitalize;
```

The sidebar also displays the text "Welcome Back!" under the "Content" section.

That's it!

Thank You So Much For Purchasing!

Please don't forget to rate us 5 stars and
write a review to support us to make new awesome
designs.

Enjoy!
